Pursuant to a notice duly published in the Times-West Virginian on March 13, 2026, a public hearing was convened to obtain citizen input on an ordinance providing for and authorizing the purchase of certain parcels of real estate situate in the City of Fairmont.

The Mayor asked if anyone present desired to speak to the proposed ordinance.

Discussion:

Councilmember Weber said that years ago he brought up the idea that the City could probably get loan interest loans to help some of these people who need to repair their homes and bring it up to code. He said that he noticed these come from Area 3, 4, and 5, except for Merchant Street, and those are the areas that these homes are in. He wondered if the City has ever thought about helping these people in some way with low interest loans.

Mr. Blosser replied that there is a program that is funded for Mon Valley Habitat for Humanity for about \$1.2 million grant they received and some of that is to help with repairs to folk's homes. He explained that they just received the award for that and it is specifically focused around Fairmont, however, the meetings have not been scheduled yet to determine exactly the flow of how all of that is going to work. The Code Enforcement Department helped them with surveying residents, which was necessary in order for them to apply for that funding. He thought it came through the Federal Home Loan Bank, and he thought there was a program getting operational and once we have more details on that, he will share with Council.

Councilmember Weber asked if anyone on this list in the ordinance would be eligible for that.

The Manager replied that the folks on this list in the ordinance, technically these are either existing vacant structures that no one is in, and no one is claiming ownership of them, and we are essentially ratifying the purchase at the tax sale. The individual who already had it had already left it to allow it to go to the tax sale process so there is no existing residents within these structures and some of them may be an existing vacant lot that we may have already removed the structure from through eminent danger as well.

There being no one else to speak, the public hearing was called to a close at 7:11 p.m.

IN RE: COMMUNITY CHALLENGE

Councilmember Moran said that she was challenging the community to pick up 30 pieces of trash in 30 days which is about one bag of trash. She said that she would be willing to go with anyone that wanted to participate if they were feeling lonely to go by themselves and they can pick up trash together.

TIFFANY DIXON, a student support coordinator for the Middle College and Rise

Program at Fairmont State University addressed Council regarding Child Watch. She invited Council to a public event, "Child Watch," on Tuesday, April 7th at 8:15 a.m. – 3:00 p.m. She noted this is an opportunity coordinated by CASA Marion County Child Advocacy Center, the WV Department of Human Services and Fairmont State University for a deep insight and understanding of the experiences of children and youth entering care. CITY MANAGER'S REPORT

IN RE: CONGRESSIONAL SPENDING REQUEST SUBMITTED

Mr. Blosser reported that the City submitted for FY27 our first Congressional Directed Spending request with Congressman Moore's Office. He noted that the process moves very quickly once those offices begin to roll that out. He said that we submitted for \$2.4 million which the submission was related to the rehabilitation and dredging of the raw water reservoir at the Water Treatment Complex.

The Manager announced that he is currently working on submissions for the Senate offices for Senator Capito and Senator Justice but those have not been released yet. He noted those will be coming out shortly and probably due toward the end of the month. Their offices will be submitting that \$2.4 million but we will be focusing on their offices for a larger submission related to Wastewater Treatment Plant upgrades that has been discussed with Council and have been talked about publicly.

IN RE: PUBLIC WORKS DEPARTMENT

The City Manager thanked the Public Works Department for starting to clean up the cinders from the winter. He said that the afternoon shift has shifted to midnight shift and they are working to clean up high traffic areas of the City. They will be blowing off sidewalks with the salt and cinders from the heavy winter and then the street sweeper will begin to work in those areas as well. He noted that this winter was significantly harsh in terms of the amount of salt and cinders that were utilized by both us as well as the Department of Highways so it will take some time to clean those areas up.

IN RE: OPIOID APPLICATIONS

Mr. Blosser then highlighted that the Opioid Ad-Hoc Committee met today and graded applications and has recommended several for funding to City Council. approved or denied at that meeting.
